## AMERICANS ABROAD IN RED CROSS WORK

United States Citizens Far Away Enthusiastic Members of the "Fourteenth" Division.

Among the most enthusiastic and energetic members of the American Red Cross are those citizens of the United States who live outside the continental boundaries of their country—sons and daughters of the Stars and Stripes residing at the far corners of the earth.

These people compose the Insular and Foreign Division of the parent organization, generally known as the "Fourteenth" Division, which has jurisdiction of all territory outside the country proper; that is, Alaska, Porto Rico, Hawaii, Virgin Islands, the Philippines, Guam, and even the island of Yap, which came under our flag as a result of the world war. For the year 1920 this division reported 30,808 paid up members.

The main object of this division is to give our citizens everywhere the opportunity to participate in the work of the organization which stands for the best national ideals. Americans in far places intensely loyal and patriotic, treasure their membership in the Red Cross as the outward expression of their citizenship. It is another tie to the homeland and to each other. There are chapters of this division in Argentina, Bolivia, Brazil, Canal zone, Chile, China, Costa Rica, Cuba, Dominican Republic, Ecuador, England, France, Guam, Guatemala, Haiti, Hawaii, Honduras, Japan, Manchuria, Netherlands, Nicaragua, Paraguay, Peru, Philippines, Porto Rico, Siberia, Spain, Sweden, Switzerland, Syria, Turkey, Uruguay, Venezuela and Virgin Islands.

During the war these scattered members of the Red Cross contributed millions in money, and millions of dollars' worth of necessary articles for the men in service, and sent many doctors and nurses to France. At the same time they carried on an excellent Home Service in their respective communities for the families of those who had gone to war, and in some regions gave large sums of money and immeasurable personal service to the relief of disaster and disease victims.

The division is now establishing service clubs in foreign ports for the benefit of sailors in the American Merchant Marine, making plans to aid Americans in trouble in foreign lands and completing arrangements for giving immediate adequate relief in case of disaster.

It is the Fourteenth Division's part in the great Peace Time program of the American Red Cross.

## RED CROSS ASSISTS DISABLED VETERANS

The American Red Cross is carrying on a wide program of service for the disabled World War veterans receiving treatment in United States Public Health hospitals, and those being trained through agencies of the Federal Board for Vocational Education.

In each of the Public Health Service hospitals Red Cross workers devote their time to the general welfare of the service men from the day they enter the receiving ward until they are discharged. After the soldier's discharge the Red Cross continues its friendly service through the Home Service Section in his own community.

The Red Cross maintains a convalescent house at all of the hospitals, where patients can amuse themselves after they are well enough to be up and around. Parties and picture shows in the wards are also furnished, with occasional excursions when convalescence comes.

Great service has been rendered by the Red Cross in mental cases in identifying those who have appeared in state hospitals for the insane, and helping them secure compensation due from the Bureau of War Risk Insurance.

In the Federal Board's various district offices the Red Cross worker, acting with the Home Service Section, makes necessary loans to the men, arranges suitable living conditions, helps collect evidence and supply facts to the Board, assists in "appealing cases" and settles various personal difficulties for the men. The workers also follow up and aid all men who discontinue training.

The Red Cross agents find men "lost" to the Board, help clear up delayed cases and aid the college counselors in their friendly work with the men. Many Red Cross chapters have set up recreation facilities, and in some instances living clubs, so these victims of war may have attractive surroundings and the fun which must go with effective school work.

To the American Red Cross Institute for the Blind near Baltimore, Md., more than half of all the Americans blinded in the World War have come for training. The Institute, through the Red Cross, long ago conducted an exhaustive industrial survey to determine the vocations for which blind men could be fitted. As a result it is putting forth well trained men equipped to meet the social, civic and economic requirements of their respective communities.

## LAUNCH VAST EFFORT FOR EUROPE'S YOUNG

Eight American Relief Agencies Combine to Save 3,500,000 Children Death Menaces.

Eight great relief organizations, working among and for every race and creed, have united under the name of the European Relief Council to coordinate child relief in Europe this winter. The Council will seek to provide funds for 3,500,000 starving and diseased children in Eastern and Central Europe and to administer this relief economically.

It consists of Herbert Hoover, chairman, and Franklin K. Lane, treasurer; Edgar Rickard, representing the American Relief Administration; Dr. Livingston Farrand, representing the American Red Cross; Felix Warburg, representing the Jewish Joint Distribution Committee; Wilbur K. Thomas, representing the American Friends' Service Committee (Quakers); James A. Flaherty, representing the Knights of Columbus; Dr. C. V. Hubbard, representing the Young Men's Christian Association; Miss Sarah S. Lyon, representing the Young Women's Christian Association; Dr. Arthur Brown, representing the Federal Council of Churches of Christ in America.

It is the purpose of the Council to raise \$33,000,000, in an appeal centering at the Christmas holidays, to the end that the desperate situation regarding child life may be met. In every town and community of the nation, it is planned, local committees representing all the co-operating agencies will be formed to secure the vitally necessary funds. Of the amount sought, \$23,000,000 will be used for basic food and \$10,000,000 for medical service.

For every one of these American dollars the local governments and communities aided will furnish two dollars, in the form of transportation, labor, guards, clerical help, cash contributions and such food supplies as are locally obtainable. No children receive the free food except after medical tests showing them to be seriously undernourished. The remaining \$10,000,000 of the fund is just as urgently needed for medical service to the children.

The European Relief Council will do much more than effect economies in the raising of the child saving fund. It will, with the inspecting forces of eight grant agencies, keep a constant eye on the administration of America's merciful gift, in order that there shall be no wastage and no tendency toward pauperization.

"This is the largest co-operative benevolent organization ever attempted in the United States," Mr. Hoover says. "The organizations represented have come to the unanimous, though independently formed conclusion, that nothing but prompt and united action by the whole American people can avert incredible tragedy for the helpless children involved. The organizations forming the Council will organize their representatives in every town and community of the nation for the raising of the necessary funds."
